ONLINE TOOLS

NO SURPRISES. CHECK YOUR LABEL.

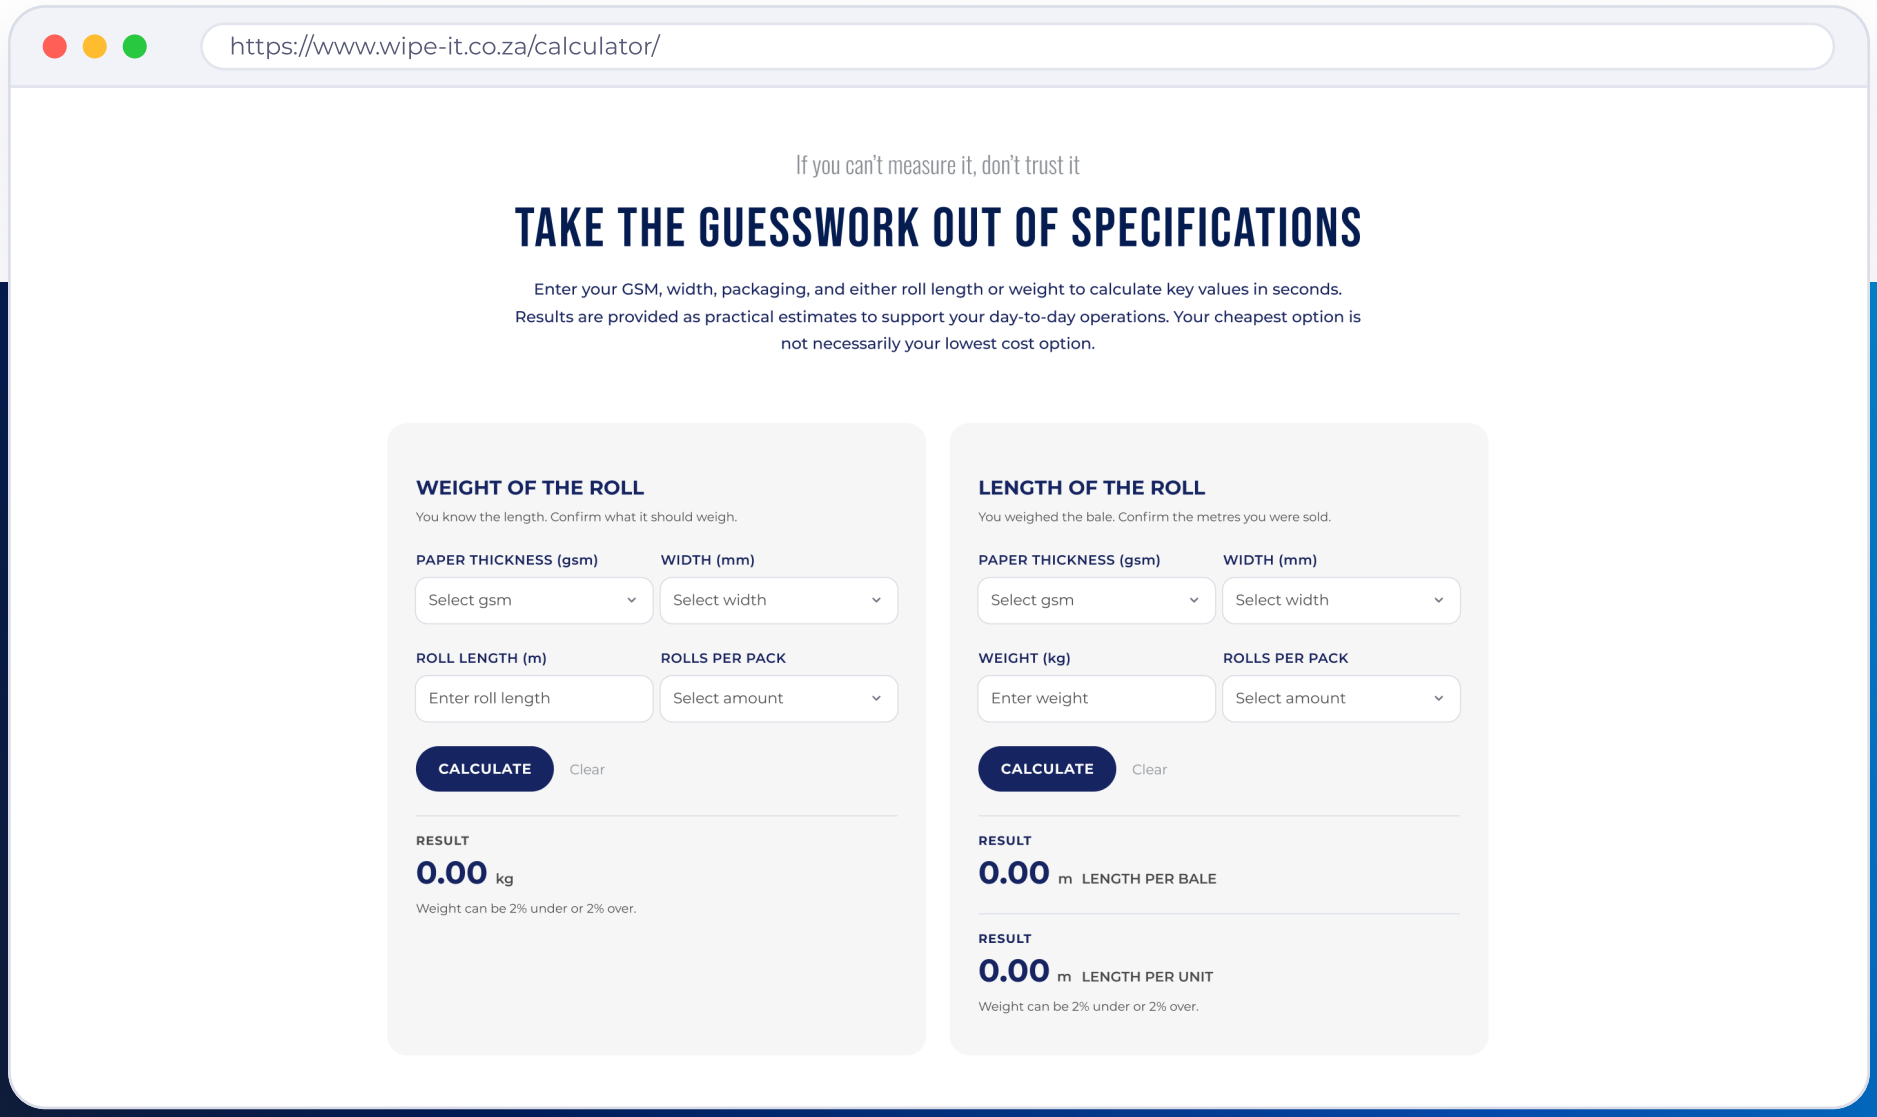

MEASURE TRUE.
CHOOSE WITH CONFIDENCE.

Size matters to us, and to you. The smallest details make the biggest difference, so our free calculator on the website lets you check that the weight and length of every roll match what is on the label.

Enter the gsm, width and packaging, then the roll length or weight, and get a practical estimate in seconds.

PRODUCT CALCULATOR

wipe-it.co.za/calculator

HOW TO VERIFY A PRODUCT

1. Weigh a full, sealed bale on a calibrated scale.
2. Enter the gsm, width / length and packaging details from the label.
3. Compare your reading against the acceptable range.

±2% Acceptable tolerance: weight can be 2% under or 2% over.

IF YOU CAN'T MEASURE IT, DON'T TRUST IT.

WHY WE CHOOSE SAPPI TRIPLE GREEN

sappi | Triple Green Tissue

Sappi Triple Green Tissue is made from sugarcane fibre (bagasse), with wood fibre from FSC™-certified plantations, using an elemental chlorine-free process. It is produced at Sappi's Stanger Mill in KwaZulu-Natal, the only Sappi mill that makes tissue.

FROM CANE TO ROLL

1

Sugarcane

Grown in KwaZulu-Natal by local farmers, many of them small-scale growers.

2

Bagasse

The fibre left over after sugar is extracted, supplied by the neighbouring Gledhow sugar mill.

3

Stanger Mill

Pulped without chipping and made into tissue using an elemental chlorine-free process.

4

Dream tissue

Converted by Wipe-it into Dream towels and garage rolls.

THREE WAYS IT'S GREENER

01

Conserves resources

Puts an agricultural sugarcane product to work as alternative fibre. Unlike wood, bagasse doesn't need to be chipped, which saves energy.

02

Protects nature

Made with an elemental chlorine-free process. The finished tissue is biodegradable, acid-free and recyclable.

03

Supports local

Sourced close to home from South African growers, avoiding the emissions of long-distance transport.

80 000 T
Bagasse pulp produced at Stanger Mill each year

FSC™
Chain of Custody / Controlled Wood certified (Sappi Southern Africa)

ISO 14001
Certified environmental management, audited every year
